

Covariate: WT0
Individual random effects versus covariate

corr: correlation; p: p-value

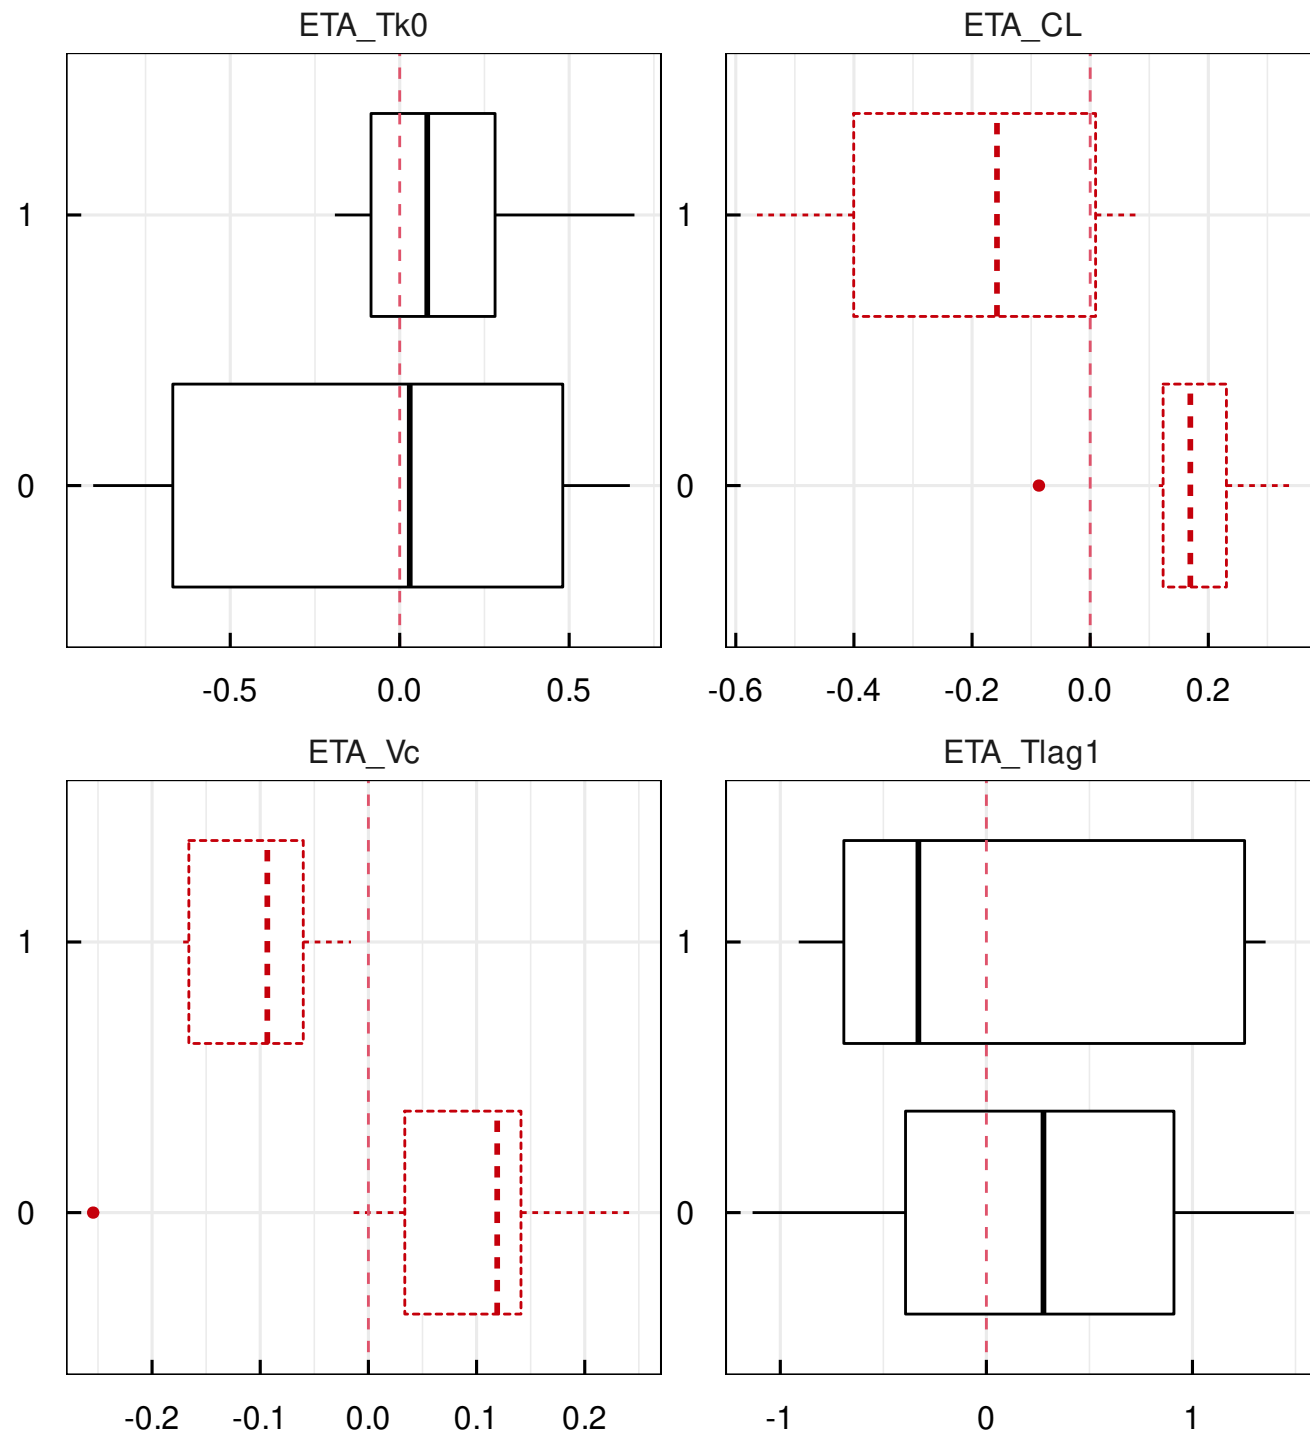

Covariate: SEX

Individual random effects versus covariate

p-Value from t-test, $p < 0.05$ suggests that means are different

0: N=7

1: N=5

p-Value ≥ 0.05 < 0.05 NA

p-Value ≥ 0.05 < 0.05
